CONTENTS

Part 1 (January 1997)

G. A. Mathews: Implementing cotton integrated pest management 1

B. P. Forster, M. A. Lee, U. Lundqvist, S. Millam, K. Vamling and T. M. A. Wilson: Genetic engineering of crop plants: from genome to gene 15

J. Siame, R. W. Willey and S. Morse: A study of the partitioning of applied nitrogen between maize and beans in intercropping 35

J. Baidu-Forson: On-station farmer participatory varietal evaluation: a strategy for client oriented breeding 43

R. Poultney, J. Riley and R. Webster: Optimizing plot size for field experiments on terraces 51

J. T. Korva and G. A. Forbes: A simple and low-cost method for leaf area measurement of detached leaves 65

J. Riley and C. J. Alexander: Statistical literature for participatory on-farm research 73

H. De Bon, F. Faye and J. Pages: Development of vegetable cropping systems in the Niayes zone of Senegal 83

H. Recke, H. F. Schnier, S. Nabwile and J. N. Qureshi: Responses of Irish potatoes (*Solanum tuberosum* L.) to mineral and organic fertilizer in various agro-ecological environments in Kenya 91

F. M. Amoah, K. Osei-Bonsu and F. K. Oppong: Response of improved robusta coffee to location and management practices in Ghana 103

Book Reviews 113

Notes to Contributors 121

Part 2 (April 1997)

D. J. Midmore, Y. C. Roan and M. H. Wu: Management practices to improve lowland subtropical summer tomato production: yields, economic return and risk 125

C. J. Pilbeam, M. Wood and M. J. Jones: Proportion of total nitrogen and fixed nitrogen in shoots of lentil and chickpea grown in a Mediterranean-type environment 139

A. E. Osman and F. Ghassali: Effects of storage conditions and presence of fruiting bracts on the germination of *Atriplex halimus* and *Salsola vermiculata* 149

N. J. Bello: An investigation of the agroclimatic potential of the forest–savanna transition zone of Nigeria for the cultivation of sorghum 157

C. R. Riches, S. J. Twomlow and H. Dhliwayo: Low-input weed management and conservation tillage in semi-arid Zimbabwe 173

K. D. Subedi and B. K. Dhital: Plant population density dynamics of maize under farmers' management in the Western Hills of Nepal 189

K. D. Shepherd, J. K. Ndufa, E. Ohlsson, H. Sjögren and R. Swinkels: Adoption potential of hedgerow intercropping in maize-based cropping systems in the highlands of western Kenya. 1. Background and agronomic evaluation 197

R. Swinkels and S. Franzel: Adoption potential of hedgerow intercropping in maize-based cropping systems in the highlands of western Kenya. 2. Economic and farmers' evaluation 211

P. J. Brandjes and F. B. Lauckner: On-farm assessment of two liming materials in cabbage and hot pepper cultivation on acid sulphate soil in Guyana 225

A. S. Modaihsh: Foliar application of chelated and non-chelated metals for supplying micronutrients to wheat grown on calcareous soil 237

Book Reviews 247

Part 3 (July 1997)

A. Buerkert, J. P. A. Lamers, G. H. Schmelzer, K. Becker and H. Marschner: Phosphorus and millet crop residue application affect the quantity and quality of millet leaves and fodder weeds for ruminants in agro-pastoral systems of the Sahel 253

R. R. Vera, K. Reátegui and W. M. Loker: Milk and pastures at the frontier: the case of the Peruvian forest margins 265

G. Thiele, G. Gardner, R. Torrez and J. Gabriel: Farmer involvement in selecting new varieties: potatoes in Bolivia 275

S. Morse, R. W. Willey and M. Nasir: Modelling the long-term yield effects of compensation in intercropping using data from a field experiment 291

A. Böhringer and D. E. Leihner: Pigeonpea in simultaneous fallow-cropping systems in the subhumid forest-savanna mosaic zone of West Africa 301

O. K. K. Mponda, D. Gibbon, E. Arthur and S. Morse: Involving farmers in the design of a low-input control programme for sesame flea beetles in southern Tanzania 313

G. P. Warren, S. S. Atwal and J. W. Irungu: Soil nitrate variations under grass, sorghum and bare fallow in semi-arid Kenya 321

K. D. Joshi, M. Subedi, R. B. Rana, K. B. Kadayat and B. R. Sthapit: Enhancing on-farm varietal diversity through participatory varietal selection: a case study for *chaite* rice in Nepal 335

P. C. Agboma, P. Peltonen-Sainio, R. Hinkkanen and E. Pehu: Effect of foliar application of glycinebetaine on yield components of drought-stressed tobacco plants 345

D. M. Pellet and M. A. El-Sharkawy: Cassava varietal response to fertilization: growth dynamics and implications for cropping sustainability 353

P. J. Burgess and M. K. V. Carr: Responses of young tea (*Camellia sinensis*) clones to drought and temperature. 3. Shoot extension and development 367

Book Reviews 385

Part 4 (October 1997)

L. Batra, A. Kumar, M. C. Manna and R. Chhabra: Microbiological and chemical amelioration of alkaline soil by growing Karnal grass and gypsum application 389

F. Mekbib: Farmer participation in common bean genotype evaluation: the cast of eastern Ethiopia 399

B. F. Mullen, I. K. Rika, D. A. Kaligis and W. W. Stur: Performance of grass–legume pastures under coconuts in Indonesia 409

J. W. Hansen, E. B. Knapp and J. W. Jones: Determinants of sustainability of a Colombian hillside farm 425

I. A. Adetunji: Effect of time interval between pod set and harvesting on the maturity and seed quality of fluted pumpkin 449

W. Songa, R. J. Hillocks, A. W. Mwango'mbe, R. Buruchara and W. K. Ronno: Screening common bean accessions for resistance to charcoal rot (*Macrophomina phaseolina*) in eastern Kenya 459

M. Singh, S. Christiansen and B. K. Chakraborty: An assessment of the effect of covariances of plot errors over time on the precision of means of rotations with wheat 469

S. Jacques, R. K. Bacon and L. D. Parsch: Comparison of single cropping, relay cropping and double cropping of soyabeans with wheat using cultivar blends 477

M. Ruppenthal, D. E. Leihner, N. Steinmüller and M. A. El Sharkawy: Losses of organic matter and nutrients by water erosion in cassava-based cropping systems 487
